

# Wake up to the new Dawn

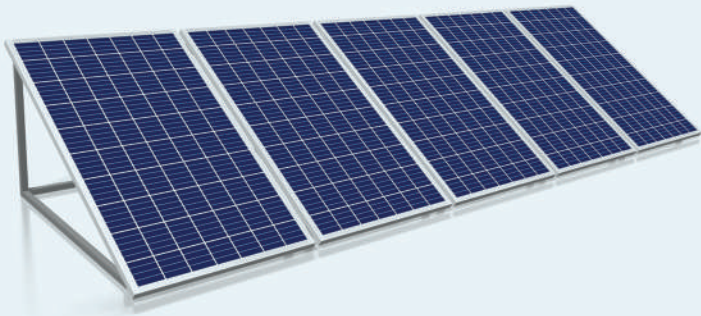

Varchasva is a market leader in solar industry

**“ Going solar saves money, generates more money & reduce taxes.**

**Provide a cleaner today and tomorrow.**

Varchasva Energy Pvt. Ltd , a world-class EPC and O&M contractor for utility-scale solar power projects is an odyssey into a new dawn. The vision of a first-generation entrepreneur who saw tremendous potential in tapping solar energy to meet the ever-rising demands of an energy-guzzling economy, our brand story is of a lot of drive, determination, hard work and, finally success.

## **SOLAR ENERGY SIMPLIFIED**

Our solar solutions are intrinsically simple and carefully-designed to world's top engineering standards. We are committed to minimize your carbon imprint by helping you generate energy from solar sources with optimum outputs to guarantee you the best value for your money. Besides, we believe in quality and don't ever deviate from it.

We undertake turnkey projects - from installation to maintenance, to make your journey towards sustainability completely trouble-free. We have strong laid down legal and financial closure and commissioning processes to smoothen your transition to green energy. Give us your unused roof or a defunct parcel of a land site, and our engineers will work out the most efficient package for your journey into the clean future and provide you maximize your return on the investment in the shortest possible timeframe

## BENEFITS OF SOLAR ROOFTOP

The units of electricity produced from solar is equivalent to units saved in electricity bill

Since most of the taxes in electricity bill as on per unit basis, the overall impact on saving is very high

Complete availability of the grid and hence no generation loss due to grid fail

33% cashback in the form of tax benefits paid immediately

In case of power cut and DG usage, save diesel and increase savings

## REASONS TO GO SOLAR

**Reduce Electricity Bills: If you currently pay a monthly bill of Rs. 1000/-, then you can save over 4 lacs over lifetime by going solar.**

Locked in Electricity Tariffs, Reliable, Proven Technology

Electricity prices are increasing 5% per year.

Installing a solar system insures that the tariff hikes have zero effect on your wallet.

Most of our solar systems are 24 years of generation warranty.

Solar panels turn photons from the sun in to DC electricity

The AC power you don't use is sent back into grid and used by the utility company

The inverters turn DC current in to alternating current (AC) for use in your home

## CONTROL YOUR ELECTRICITY EXPENDITURE WITH SOLAR!

**₹14 - 18 Per Unit**

You pay for power from Diesel Generator

**₹7 - 11 Per Unit**

You pay for power from the Grid 3-8 Per Year

**3-8% Per Year**

Annual rise in electricity and diesel prices

Your electricity expenditure will not reduce in future. It will rise more and more. So if you want to reduce your electricity bills and save money spent on diesel generators, then you should install solar.

Cost of **100 KW**

this might sound as a lot of money **₹45,00,000/-**

**SOLAR IS NOT COSTLY**

UNITS OF ELECTRICITY GENERATED ANNUALLY  
**1,50,000**

Will depreciate by 1% annually

Equity  
**₹ 13,50,000**

30%

Debt  
**31,50,000**

Remaining 70%

Repayment Period  
**4 years**

Interest Rate  
**9.30%**

## VARCHASVA'S VISION

We want the whole mankind to benefit from the free energy that we receive from the sun.

This VISION is reflected in Varchasva's four values:

- *We are Responsible*
- *We are Collaborative*
- *We are experienced*
- *We are Sustainable*

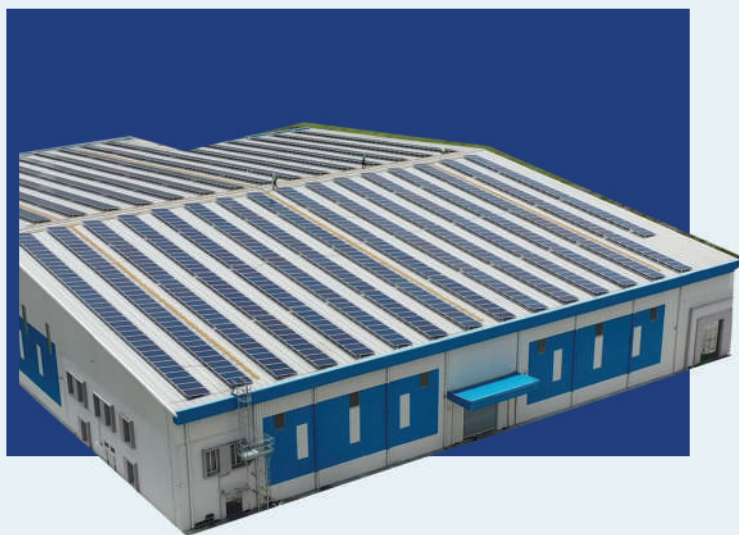

## WHAT DO WE PROVIDE

*EPC for Solar Power Plant*

*Solar Rooftop EPC*

*O&M for solar power plant & Rooftop Solution*

## OUR VALUED CLIENTS

**AUTOBAT**

**Varchasva Energy Pvt. Ltd.**  
11,4<sup>th</sup> floor, 4D Square, Opp.  
Gandhinagar IIT, Nr. Visat  
Circle, Matera, Ahmedabad.
